

Vetronix Tech 2

FEATURES

- ✓ Authentic GM software in the Vetronix Tech 2 means the most comprehensive diagnostic software available for late model GM vehicles.
- ✓ Support for on-board diagnostics on all GM systems 1992 thru current year.
- ✓ Removable hardware modules provide insurance against scan tool obsolescence.
- ✓ Large, easy-to-read backlit screen.
- ✓ RS232 and RS485 ports provide the avenue to connect future devices to your Vetronix Tech 2.
- ✓ Ability to capture stored DTCs, Freeze Frame, and Failure Record for later review.
- ✓ Ability to view the status of vehicle diagnostic tests as they run.
- ✓ Raised tactile keys, clearly labeled, mean no mistaken key punches.

BI-DIRECTIONAL

The authentic GM 1992-current year software will provide full bi-directional control when performing powertrain, chassis, and body diagnostics.

Vetronix Tech 2

Available Accessories

GM's Expertec™ Service Programing System

This is a powerful Vetronix Tech 2 option that enables the technician to reprogram controllers on 1993 and newer GM/Flash Programmable Controllers. To utilize this program, three things are needed: a PC that meets minimum requirements, the Vetronix Tech 2 and the SPS CD-ROM disks. For more information on SPS pricing and PC requirements, please contact your local Vetronix Factory Representative.

Additional Features

In addition to the latest in electronics and software, the Vetronix Tech 2 also has an improved ergonomic design. The Vetronix Tech 2 has a well-balanced feel and is equipped with adjustable straps on both sides, making single-handed operation a snap with either the right or left hand. The handy storage case is designed to protect and allow easy transport of the Vetronix Tech 2. The storage case also has additional storage space for adapters and accessories.
